

**Tough Fit Bucket Series (w/Lid)
TBK-300F/400F**

Comes with the lid.

This bucket can be used like a tool box!

Product information is available here.

A handbag-type bucket for easy carrying of various tools.

Can organize tools neatly with the replaceable inner case!
Can find soon a tool that you want to use!

Hanging the bucket from the shoulder or the neck, it is possible to work at hand without interruption.

As provided with the lid, the items inside will not be out of the bucket even if multiple buckets are stacked.

No trashes inside! No drop of tools!

The replaceable inner case to insert tools is provided as a standard accessory. This inner case supports self-standing function of the product.

The lid can be attached using hook-and-loop fasteners. Can perform work with the lid attached or without it.

2 buckles prevent unexpected opening of the lid.

Commercially available MOLLE system accessories can be attached.

New

Newly improved buckets full of ease-of-use features!

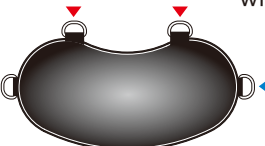

Comes with a shoulder belt.
310mm

Thick and wide shoulder pads reduce the burden on the neck and shoulders!

Equipped with a handle for easy carrying.

The shoulder belt can be attached to the different position, according to work.

▶ Attaching the shoulder belt toward you, it doesn't get in the way when working with it around your neck.

Large hook that can withstand heavy loads.

Comes with a hook that can be used to hang it from a stepladder.

MOLLE system even inside. Can store inside the tool that you don't want to be dropped!

The oval shape enables the product not to rotate, and it remains stable.
